

D05 VALVE STACK

SPECIFICATIONS:

PRODUCT #:	9300-46-1100
PRODUCT NAME:	D05 VALVE STACK
DIMENSIONS:	1'-4" X 1'-4" X 1'-4"
WEIGHT:	25LBS

Function:
 The D05 Valve Stack is our standard for most hydraulic application. We combine a high powered proportional valve with a manual valve, giving the user the option of full automated control, or a manual joystick, very handy during installation, and as a failsafe backup. Can connect to any ETF hydraulic device, and is stackable to maintain a small footprint. Plus, the valves are always protected from harm. Good fluid power in a great form factor. The NEXUS D05 Valve Stack.

SYSTEM:
NEXUS
 COMPONENT:
D05 VALVE STACK
